

	Exemplary	Skillful	Emerging Proficiency	Requirements Unmet	Points Earned
Content	All the required information was included in the slideshow, and additional information was included to provide insight.	The majority of the required information (except one or two things) was included in the slideshow.	Some of the needed information (except three or four items) was included in the slideshow.	Required information is rarely included in the slideshow.	
Design, Graphics, Grammar, Usage & Mechanics	Each slide is aesthetically pleasing because the fonts are readable and the colors are complimentary. Also, the content is organized using exceptional mechanics, usage, and grammar knowledge, which means there are no errors. All graphics are related.	Each slide is most aesthetically pleasing but the fonts are not always readable and the colors are not complementary. Also, the content is organized using good mechanics, usage, and grammar knowledge usually, which means there are two or three errors. Most graphics are related.	Each slide is somewhat aesthetically pleasing, but the fonts are hard to read and the colors are not complementary. Also, the content is organized using substandard mechanics, usage, and grammar knowledge, which means there are four or five errors. The graphics somewhat applies.	A significant portion of the slides are hard to read, and the colors are not aesthetically pleasing. There a or more errors related to mechanics, usage, and grammar. Very few graphics apply.	
Sources	Used four to six credible, reliable sources for this project. The works cited page is included and formatted correctly.	Used three credible, reliable sources for this project and used MLA to cite sources. One thing is not formatted correctly on the works cited page	Used two credible, reliable sources for this project and the works cited page has two errors in the formatting.d two credible, reliable sources for this project and the works cited page has two errors in the formatti	Used one credible, reliable source or no sources are listed for this project; there are three or more formatting issues related to the works cited.
